

## Still Life Art

We are all at home so why don't we have a go at creating a piece of art based on an object or objects in your house. You could gather some bottles like in the first picture, a vase of flowers like the second example or collect a teapot and mugs from the kitchen or cuddly toys from your bedroom - the list is endless.

For this project, look carefully at and then sketch your objects using a pencil.

Now, 'fracture' your sketch by drawing lines with a ruler.

Colour your drawing - you could use felt pens, pencils or wax crayons. Either fill each block with a single colour or draw and colour a pattern.

At the end outline your objects in black felt pen or crayon - you may choose not to do this based on your opinion of your artwork. This has been done in the first picture but not the second.

Now enjoy your artwork - put it up on a wall or the fridge door or even better you could take a picture and post it on the P7B's Got Talent channel.

Have fun!
