Name ....
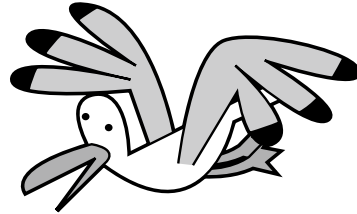

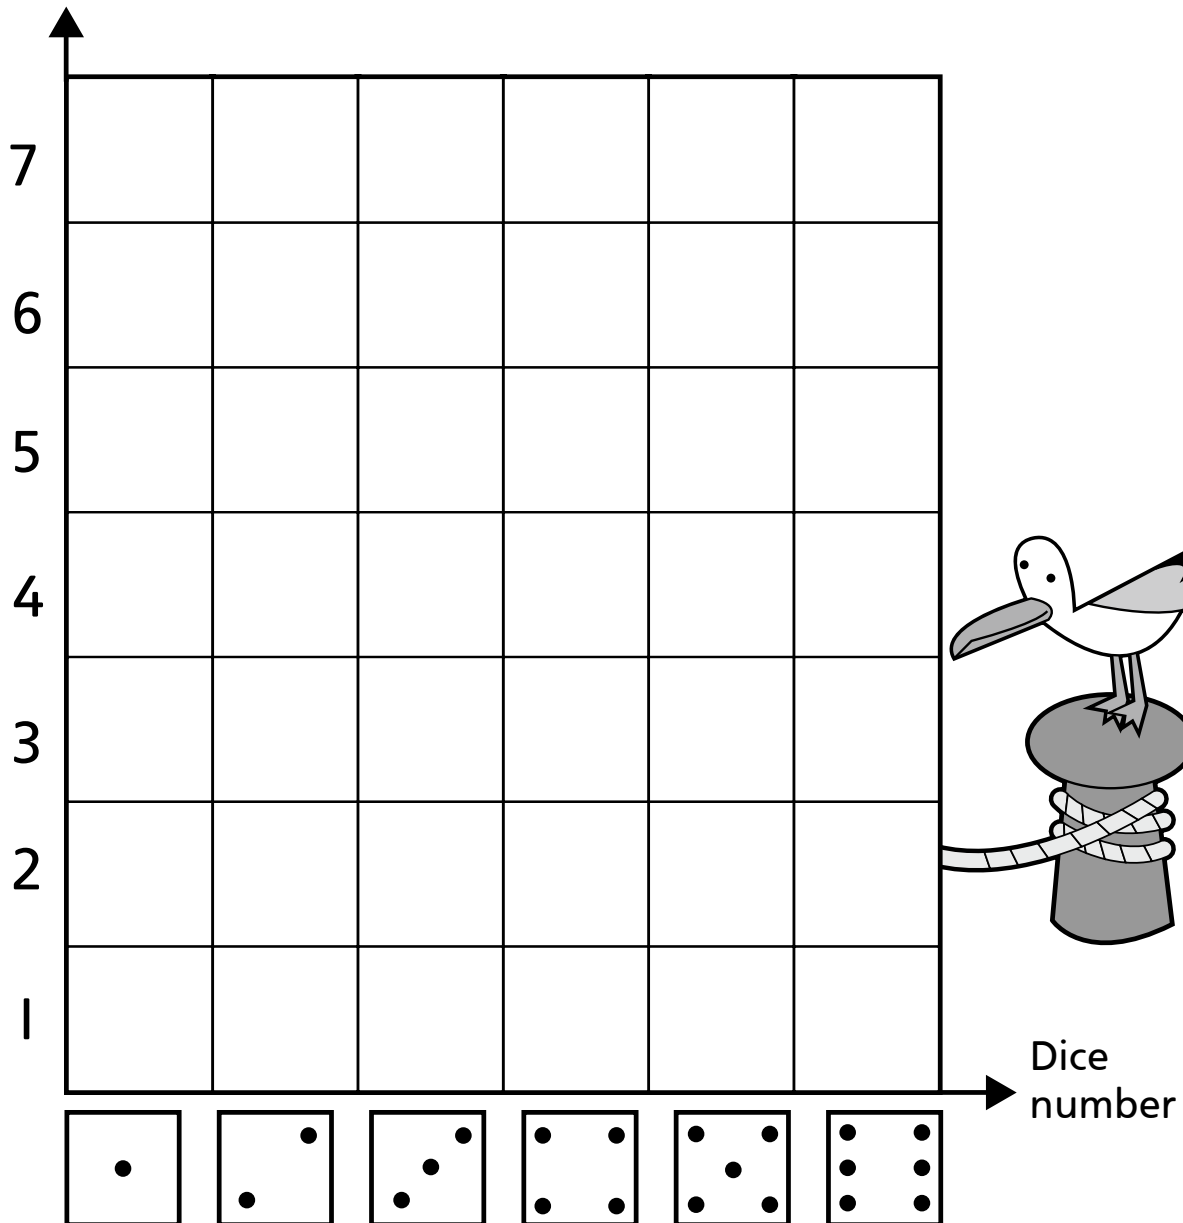

Block graph

1. Roll a dice. After each roll colour a square on the block graph in the matching column. Stop when one column reaches the top.

Number
of rolls

7						
6						
5						
4						
3						
2						
1						

Dice number

2. How many times did you roll each number? Write your answers on the back of this sheet.

I can recognise and work with block graphs
