

## P2/1 Learning at Home Week 9

### Reading

- I can listen to others read to me and enjoy hearing lots of different texts like jokes, poems, rhymes, songs, both fiction and non-fiction texts

Please keep trying to read to your child whenever you can and encourage your child to have a go at reading independently too. Story Time from Home will continue on GLOW and I know that lots of you are enjoying using the Oxford Owls website. If you haven't logged in to this yet, please give it a try.

### Phonics

- I can use my knowledge of phonics and spelling patterns to de-code new words

#### group 1 qu

<https://www.bbc.co.uk/bitesize/topics/zvq9bdm/articles/zrqtp3>

#### group 2 th

<https://www.bbc.co.uk/bitesize/topics/zvq9bdm/articles/zk6f6v4>

How many words can you find and write with this pattern?

Have a look at these BBC Bitesize activities to help you with these tricky sounds - links are in blue above!

### Writing

- I can write a story and draw a detailed picture.
- I can use my core targets (capital letters, full stops, finger spaces, present work neatly).

### Topic – A Fairy Tale Character

This week's Story Time from Home has "fairy tale" theme and the writing activity is to write a new story that includes a character from a fairy tale.

### Handwriting

- I can form my letters correctly following the Handwriting Formation Sheet

Form your letters correctly following the Handwriting Formation Sheet. Make sure you begin writing in the correct place. This week's letters are:

b p

### Maths

- I can explore ways in which data is presented
- I can use a range of ways to collect information
- I can sort it in an organised and imaginative way using my own criteria.
- I can ask and answer questions about data.

This week I have put the maths information for my class on Monday's blog.

The children have already done some data handling including creating simple graphs and charts in their workbooks in class so this not a new concept. **Because of this there is no need for then to be drawing more graphs/charts at home so please do not worry about this part of data handling!**

I have put some links to games which allow them to practise interpreting data as well as a video lesson about pictograms by Mrs Menmuir.

**Remember there are lots of number activities on Heinemann Active Maths and Sumdog.**

### IDL Topic – Minibeasts

- I can find out facts about spiders and record that information
- I can use a variety of media to create and draw a spider

Watch the PowerPoint and the YouTube videos about spiders and use this information to make your very own Spider Fact File. You can write this in your jotter or if you have paper at home you can fold it to make your fact file.

Write 3 facts about spiders and draw a detailed picture.

Make your own spider using paper or junk. Make a spider game and play it with your family. Have fun!

The spider PowerPoint and YouTube videos will be on the blog on Monday!
