

Movement in a maze

Key

- F = forwards
- B = backwards
- L = turn left
- R = turn right

Work with a partner. One of you is the Writer and one is the Mover.

Put a toy figure on the rabbit and a counter on any carrot.

Writer, you will give instructions to the toy figure to get through the maze to find the carrot.

Writer, each time you give an instruction, write it here. → Try to use shorthand (look at the key above).

F2

Mover, each time you hear an instruction, move the toy figure.

Do the written instructions work to get you to the carrot?

I can record turns and directions
