

## P6 - Week 12, 22<sup>nd</sup>-26<sup>th</sup> June 2020

Last weeks of P6!! A few tasks are rollover tasks from last week so not many more have been added this week.

### Maths

L.I -I can interpret questions and select from a range of processes, in order to work out a solution to the task.

For your task this week, read over the maths mystery and using your maths knowledge complete each of the clues to find out your answer.

Challenges are also set on Sumdog, Mangahigh and Active Learn.

### Literacy

Say hello to your new teacher!

Your own choice of how you would like to do this but I **know** they will be keen to hear from you and start getting to know you!

You could write this in the form of a letter, or a list of five (or more!) things you would like them to know.

Send a farewell message to your class!

End of Term Cheerio!

For the last week of term, we would like you to write a message to your fellow P6ers. It can be a message wishing them a lovely summer, a good luck message for P7 or simply a message to say that you miss them and hope to see them very soon.

Task:

Write your message on a piece of A4 page. It can be in any style and can be colourfully decorated. Make sure we can read your message!

Next take a picture of yourself with your sign, smiling at the camera 😊 and upload to the assignment. From there, I will collage all your lovely message to send out on the last day.

If you are not feeling artistic, please feel free to either type up a message and send it or you can

### I.D.L

Researching Linlithgow Palace Stories – code cracking

(L.I. I can research a Scottish historical theme and discover how past events.)

Find out about the different ways messages were written in code in past times and have a go at creating your own!

Complete the task then try sharing your own codes on teams for others to crack!

### Music

Mrs McWhirter has set you a **Music Soundtracks** assignment which you can find in teams.

send a message as a video too!  
Please can it be submitted no later than Thursday  
25th June, just so I have enough time to pull it all  
together?  
Thank you 😊

#### Free Writing

I know some of you have a few 'to be continued'  
writing projects on the go and I would like you to  
have time to spend on this. If you don't have one  
of these then you could either invent your own  
choice piece of writing or have a go at any of the  
previous writing challenges if you missed any.

#### Spelling

This is your last set of spelling words in P6 so can  
be done this week or next!  
Spelling practice of this week's word patterns have  
also been set for you on Sumdog.

#### Reading

Continue to enjoy your own choice reading and  
discussing your own choice of books!

#### Science

There are instructions for 3 possible science activities  
which you could try but we thought trying to make a  
flying tornado from straws might fit in with all your  
learning on natural disasters. You could try using strips  
of stiff card if you don't have straws to make it with.  
Instructions are in class materials.

#### Art – Charles Rennie McKintosh

L.I - I can appreciate the work of famous British artists  
and create pieces of art drawing on inspiration from  
the styles and techniques used by them.

Rennie Macintosh is a famous Scottish artist who was  
an architect, watercolourist and designer. The  
Mackintosh-influenced rose design is hugely popular  
and can be found on anything from fabric, to home  
accessories, stained glass, bags and wallpaper, to  
furniture, jewellery and even food! For your task, you  
can either recreate the rose by following the step by  
step guide or you can create a new flower design  
based on the style of Rennie Macintosh.

#### Health

L.I – I can participate in a range of activities that  
promotes a healthy mind and lifestyle.

It is becoming increasing importance especially with

global pandemic that we look after ourselves. We must continue to develop our knowledge and understanding, skills, capabilities and attributes we need for our mental, social, emotional and physical wellbeing now and in the future.

This week for health, there is a variety of activities that promotes various aspects of health. If you can, please choose one activity a day over the course of the school week to complete. If you can, document your challenge as a PowerPoint or Word document with pictures, so we can be involved!

#### Outdoor Learning

The Wildlife Trust's **30 Days Wild Challenge** began on the 1<sup>st</sup> June? This is set by the Wildlife Trusts. You can still adapt this challenge to suit you. There are LOTS of ideas activity ideas to choose from. Some are in the assignment and more can be found at <https://scottishwildlifetrust.org.uk/things-to-do/learn/>

Look at the Bioblitz activity in the assignment if you have started a species list or want to find out more.

#### Natural Disasters

(L.I. I can describe the physical processes of a natural disaster and discuss its impact on people and landscape.)

Some of you have started this week's geography topic on **Ocean Pollution** Mrs Hudson Price will be on teams

with you on Wednesday to see how you are getting on with that and she will be introducing your final activity then. Feel free to choose a project from previous weeks if you missed any and we would still like to see how you get on.
